Denver, Colorado, had five inches of snow yesterday.

Oville J. Stivers, of Louisville, was elected President of the Kentucky Educational Association.

Dr. H. H. Cherry, of Bowling Green, was a speaker at the night session of the K. E. A., in Louisville, Friday, and another man spoke the same evening.

The Marshall County Enterprise advises farmers not to sell corn for \$7.50 a barrel, but to hold it for \$9. This is the spirit that will force the government to fix the price of corn as it has been done in the case of wheat. This is not a time for hoarding foodstuffs.

Employees of the St. Louis car company, numbering approximately 1,000 in St. Louis voted to go on a strike for an eight hour day, increase in wages and recognition of the union. Strikers at the Wagner Electric company plant began picketing Friday. There are 1,500 on strike there.

Maj. Raoul Lufbery, of Wallingford, Conn., destroyed his eighteenth German airplane Tuesday. Lieut. Paul Frank Baer of Mobile, Ala., brought down his fifth German plane the same day, thus becoming the latest American ace. Besides the machines he is officially reported to have destroyed, Lieutenant Baer is believed to have brought down two other German machines.

Speaker Clark probably acted wisely in turning down an appointment to the Senate for a short term. He is getting to be an old man and can no longer look to the Senate as a stepping stone to anything higher. In the House he is a leader with great power. In the Senate he would be a new member and senatorial etiquette would require him to take a back seat and by the time he could assert himself his term would be out. Champ is wise.

"In the end it will be a question of who has the last reserves," said Gen. Delma Radcliffe, chief director of military operations at the British war office in a review of the western front situation. These reserves on the western front are now in the hands of General Foch, in whom both armies have the fullest confidence. He so far has employed only a small proportion of his available reserve and this is a great augury for the future. In this long drawn out test of endurance of the nations it is important to get every man possible to support the battle front, for men alone will tell in the end.

PURELY PERSONALS.

Mrs. R. B. Rollings, of Madisonville, came over yesterday, accompanied by her little son, for a short visit to her parents, Mr. and Mrs. Walter Faulkner.

Rev. Dr. Lewis Powell has so far improved that he is able to walk about the room and his friends hope to see him up soon.

Rev. Calvin M. Thompson returned yesterday from a meeting at Hattiesburg, Miss., and will fill his pulpit at the First Baptist church today.

BIRTHLESS AND DEATHLESS TOWN FOR THREE MONTHS.

(By International News Service.) Indianapolis, April 27.—Indiana has a birthless and deathless town. Not a death or a birth in January, February and March of this year occurred at Leavenworth, a town of 690 population, according to a report just submitted to Dr. J. N. Hurty, secretary of the State Board of Health.

VISITING SOLDIER HURT.

Sergt. Wesley Dalton split open the thumb on his right hand yesterday making a deep and painful wound. He was cranking a car and struck his thumb on the metal number.

EXPENSIVE TALK.

A white woman named Daisy Tucker was fined \$11 in police court yesterday on the charge of having used highly improper language over the telephone to Misses Emma O'Daniel and Mary Gomer, two of the operators at the central office.

SELECTIVES OFF FOR CAMP

WILL DEPART ON EARLY TRAIN THIS MORNING FOR LOUISVILLE CANTONMENT.

PARTY PUT IN CHARGE OF CYRUS M. WILLIAMSON, THE YOUNG HOPKINSVILLE MERCHANT.

Yesterday morning at 10 o'clock practically all of the sixty young men summoned for the draft responded and the exemption board took up the work of selecting the 42 to go.

Sixteen of the registrants filed affidavits that they were engaged in agriculture and were exempted under a special order. Others of the farmer boys did not ask exemption.

Chas. L. Bude, Jr., who was the 12nd man in the list, announced that he wanted to enter a special branch of the service as a volunteer and his place was taken by Floyd Wright, a registrant here from Texas, who was not in the list but was allowed to volunteer. Mr. Bude was accordingly excused and put on as an alternate with no probable vacancy.

The young men were addressed by W. O. Soyars, who has been assisting the board as an attorney, and by Dr. J. H. Rice and C. R. Clark, members of the board. All complimented the fine body of young men on their patriotism and willingness to obey the country's call.

Chairman Clark then announced that the soldiers were at liberty to return to their homes or remain in the city, their expenses paid, as they preferred. Those living in town of course chose to go to their homes. Nearly all of the country boys elected to stay. Some went home for the day and returned to join the company at night. All are to leave at 5:40 o'clock this morning and will arrive at Camp Taylor to-day. All of the troops will be furnished with lunches at the depot, after being taken to the Dixie Cafe for breakfast about 4:30 a. m., by special arrangement. The list of those who make up the company appears below. They were placed in charge of Cyrus M. Williamson, assisted by W. B. Lander.

REVOLUTION RUMORED IN RUSSIA

A STOCKHOLM REPORT SAYS RIOTS ARE RAGING IN PETROGRAD AND THE CZAREVITCH HAS BEEN PROCLAIMED EMPEROR.

(By International News Service.)

Stockholm, April 27.—A local paper says it is rumored in Finland that the former Czarvitch, the 14 year old son of Nicholas, has been proclaimed Emperor of Russia under the regency of the Grand Duke Michael. A revolt is also reported in Russia.

London, April 27.—The Copenhagen correspondent of the exchange telegraph company says no telegrams have reached Scandinavia from Petrograd for several days. Rumors coming from Finland report serious riots in Petrograd. It is suggested that a counter revolution has broken out.

"LENINE IS KING, AND HAIG IS A PALACE"—ANSWERS IN SCHOOL WAR QUIZ.

(By International News Service.)

Franklin, Ind., April 27.—Lenine is King of England, Haig is a palace in Germany, Lloyd George is a prince in France, and a periscope is a large gun used in heavy artillery. These somewhat startling bits of information were found on quiz sheets of seventy-five pupils who tackled ten questions on the war made passing grades. Other bits of news, likewise startling, found on the papers are: Bolshevik is a German officer, a periscope is the stem of a submarine, a U-boat is one that runs under water and is shaped like the letter "u," and a machine gun is a large one moved from place to place by machinery. More nearly correct in this: An iron cross is the reward given to soldiers for killing Red Cross nurses.

DEATH AT HOSPITAL.

Mrs. Mincha Babbs, a patient in the Western State Hospital, died Friday of Bright's disease. She was 43 years of age and the body will be shipped today to Calvert, Ky., for interment. She had been in the hospital only one month.

TWO MORE MARINES KILLED.

(By International News Service.) Washington, April 27.—Two names were added to night to the list of Marines killed in action during the recent fighting in France.

PRESIDENT WINS ON A TEST VOTE

(By International News Service.)

Washington, April 27.—President Wilson won a close victory in the Senate to-day when on the first test of strength on the Overman bill amendments proposed by enemies of the measure, were defeated. The passage of the bill without amendment by Senate now seems to be a certainty. The bill gives the President power to redistribute the functions of the executive department of the Government to speed up the prosecution of the war.

COLORED DOCTOR IS COMMISSIONED.

Dr. B. O. Moore, a leading local colored physician has been tendered a commission, by the president, as a member of the United States Reserve Medical Corps with the rank of First Lieutenant. Dr. Moore has accepted the commission, notifying the proper department and forwarded his oath of office. Dr. Moore was born and reared in this county and is one of the most popular and successful physicians of his race in this section of the State, and the signal honor which has come to him is not only deserving but will be appreciated by his race, whose loyalty is a matter of history.

The colored people of this city and county have every reason to be proud of this recognition of their race; being the first of its kind to come to a native of the county.

FREE FRUIT FOR TOURISTS.

(By International News Service.)

Brazil, Ind., April 27.—Tourists who pass along the National highway through Clay County won't go hungry if a plan worked out by local citizens materializes. Dr. J. E. Baker, William P. Luther, T. W. Englehart, postmaster, and M. C. Lanning have volunteered to set out apple trees along a mile stretch of the road if the County Commissioners will endorse the plan. Dr. J. E. Baker, orchard expert, has agreed to keep the trees in condition along the apple tree lane, which is designed for the dual purpose of providing shade and "lunch" for tourists.

GENUINE PATRIOTISM.

(By International News Service.) Waverly, Pa., April 27.—William Stevenson, a farm hand, has bought Liberty Loan Bonds "until it hurts." His salary is but \$50, yet he has contracted to buy \$250 worth of bonds, paying \$25 a month. Of the remaining \$25 he pays \$22.50 for board, leaving him \$2.50 for spending money.

Saturday Was a Day of Comparative Inactivity In The Battle Sectors--German Attacks Were Broken Up and a British Attempt to Retake Kimmel Hill Failed.

(By International News Service.)

London, April 27.—To-night's report from British headquarters follows: "The day has been comparatively quiet, except for minor engagements. In the battle sectors there was a mutual exchange of artillery activity. Eastward of Villers-Bretonneux bodies of hostile infantry assembling were effectively engaged by our artillery. During the night the enemy attacked a British post in the neighborhood of Fostbert, capturing it. Local attacks west of Merville were broken up by our machine guns' fire, the enemy's troops failing to reach our trenches.

Berlin Claims.

Berlin, April 27.—The Germans advanced to the southern outskirts of Vermezele village, about one mile northwest of Stelio, southwest of Ypres, the war office announced to-night. Allied attempts to retake Mount Kimmel failed.

Outlook Grows Brighter.

London, April 27.—Von Arnim's headlong rush in Flanders has been effectually stopped by the French and British, although the position at Ypres continues critical. The Germans reached the southern outskirts of Voermeezele village, according to Berlin's official claim, and are thus only a scarce two miles south of Ypres. But the Germans missed a chance to follow up the capture of Kimmel Height by a swift northward dash into the rear of Haig's Ypres forces. Though the Ypres salient in all probability will be yielded to the foe, there will be no large scale victory in it for alarm, which it might have been had his regions not been too badly cut up and exhausted yesterday and unable to reap the fruits of their tactical success. Today the enemy did not renew his fierce onslaughts.

Paris April 27.—Heavy Artillery action is reported in Macedonia. A Serbian detachment penetrated the enemy position on the Carus.

EXCLUDED FROM RECORD

(By International News Service.)

Washington, April 27.—A discussion of the murder trial of Thomas J. Mooney, the San Francisco labor leader, was brought out in Congress again this afternoon. After a sharp debate the House of Representatives flatly declined to have printed in the records a statement of the case submitted by the San Francisco labor council in reply to speeches by Senators Poindexter, of Washington, and Phelan, of California.

SUDDEN CALL TO J. P. WATSON

LEADING FARMER OF TRIGG COUNTY FALLS DEAD WHILE WALKING IN HIS YARD.

J. Pettus Watson, a prominent farmer of Trigg county, died yesterday morning of a sudden attack of heart failure, at his home near Montgomery. He was seemingly as well as usual and was walking about in his yard when he fell and died in a few minutes.

Mr. Watson was 66 years old and was a successful farmer and a good citizen. He was a prominent member of the West Union Baptist church at Gracey.

Mr. Watson was a member of the Trigg County Hunting Club and was known far and wide as an expert in barbecuing meats. His services were sought in this capacity over a wide scope of territory and it was conceded by all who ate his cooking that he had no equal in all this section.

He is survived by his wife and two children, one daughter, Mrs. Lander Meacham, of this city, and one son, Hunter Watson, of Montgomery. Another daughter, Mrs. Bryant Baker, died a year or two ago.

The interment will take place this afternoon in the Roach burying ground, below Gracey. Services will be held at the grave.

ENGINEERS INVITE PRESIDENT.

(By International News Service.)

Cleveland, Ohio, April 27.—President Wilson has been invited to attend the triennial international convention of the Brotherhood of Locomotive Engineers, which will start here May 8. The convention will probably last from two to three weeks.

SEVEN SISTERS ALL WIDOWS.

On a farm 2 1/2 miles west of Mayfield, many years ago, lived Mr. Thomas Carman and his wife, Mrs. Annie Carman. To this couple eight daughters were born, seven of whom are now living. The youngest of these daughters now is 66 years old, the oldest one about 86, and they are all widows. This is a very remarkable family in this respect. They are as follows: Mrs. Clarke Wright, of the county; Mrs. Mary Mayfield, of Fort Worth, Texas; Mrs. Othelma Harned, of Detroit; Mrs. Anna Mayfield, of Mayfield; Mrs. M. B. Landrum, Mayfield; Mrs. Virginia Boswell, Mayfield; Mrs. Minnie Watson, Mayfield.

With the exception of Mrs. Watson, they have all been widows for many years and only one out of the seven has ever married again. — Mayfield Messenger.

OUR SERVICE FLAG

★★★★★★

S. Walton Forgy, of Elkton, writes as follows to the Courier-Journal and there is more truth than poetry in what he says: "Everywhere the cry is heard for men to come and work. The shops and factories, busy in furnishing supplies for the army and navy, are loud in their call for help. The navy department is advertising in every city and town for workers to come and help in the building of ships. The farmers are asking for workers to aid them in making their crops. From every direction comes the call. Even the boys from 16 to 20 are being enrolled for work, while the ones just a little older go to fight for the country. Nothing in this world is worth thinking about now but the winning of the war. Every business should be conducted with that purpose in view. Then why should the baseball player be exempted? Why should he play while other men are dying for their country? If he cannot go to war he certainly can go to work. He is needed in a thousand places where excellent wages may be earned and where he can be of real service to his country. Go down the streets of your city and contemplate the fact that one crowd of young men are preparing to go to France to fight for their country, while another crowd is composed of great, big strapping fellows, doing absolutely nothing to aid in winning the war. Is this just? Is it fair? Certainly it is not patriotism. If I were a baseball player I should be ashamed to be seen playing ball while my country was at stake. These tin heroes in time of peace should become real heroes in time of war. And the same thing is true of many other vocations. This is everybody's war, or it is nobody's. Equal rights carries with it equal burdens. Those who cannot go to war should go to work in some line that will help to win the war. The useless vocation that is, the one that will not help us to win the war, should for the time be abandoned. It is an outrage to allow the burden of carrying on this war to fall upon a few.

Everything must be organized at once for the carrying on of this war. No strong man should be allowed to waste his time or strength. If he has not the patriotism to go to work voluntarily, then the Government should step in and force him to go. We forced many of the young men to go to France; many were glad to go. Now, let us force all the others to go to work in some vocation that will be of real help in winning this war. The whole burden of this war should not be put on the young shoulders of the boys. The whole country is full of men engaged in useless vocations. In time of peace we should permit this. But in time of war it should not be permitted. Make the slacker go to work."

Charlie Alderice and Bob Austin fought over a strip of land both owned by Lynnville, Calloway county. Alderice was mortally shot and Austin seriously cut with an

Y. M. C. A.**APPEALS FOR MORE MEN**

Men! Men! Men! Men for work in the overseas red triangle huts of the Y. M. C. A.—Men over the selective age; men who understand handling their fellows; men who "can't be spared" but must be, such is the urgent appeal that came again yesterday to Lorenzo K. Wood, general secretary of the local Young Men's Christian Association. One thousand and men recruited by July 1 is the new goal which personnel workers throughout the country have set. The local drive for men will be speeded up to fit in with the new program. "What the Y. M. C. A. worker can do for the American soldier abroad is contained in special advice that reached me," said Mr. Wood. Y. M. C. A. service for the soldiers makes a thrilling story. Dr. Luther Gulick, who gave up work at the head of the recreation department of the New York public schools to watch over the athletics and recreations at Toul and other portions of the western front, giving a vivid picture of a quiet day in a quiet sector, from which he has just returned.

Dr. Gulick's dramatic story of the "front lines" includes his own baptism of fire.

"Shells from big guns came impenetrable distance behind us and disappeared in mists beyond about every 20 minutes," say Dr. Gulick. "Seventy-five dropped shells around us every five minutes or so. Parties of two or three walk along the road and escape, but not larger groups, for the German airmen were watching above and could see a crowd as it moved along.

"I was looking at the piles of shells, 'camouflaged' with strips of green and brown cloth so that they looked like the soil to the enemy, when four seventy-fives went off near me—Piff! Piff! Piff! I don't know how they effect others, but it seemed to me that everything in me was 'loose.' The noise wasn't loud. It was hard—like a bark.

"On this front there was an 8 by 10 room in the dugout used by the Y. M. C. A. and there the boys could buy chocolate, tobacco and writing paper, and there were chairs so they could sit. They couldn't read because there was only one candle for about twelve, but they could sit and talk.

"There are only three subjects they have: What they are doing; deadly monotonous. What they are eating; also deadly monotonous. Like men everywhere, they 'kicked' about their food. The only other topic is women, and that is not wholesome for them.

"Get them to play—even when they come in from a battle and think of their comrades they have left behind there; get them to play. It is play or mental destruction. And to meet them properly and get them to play we need men; real men as secretaries. Men big enough to grasp the whole thing; to understand the needs of the boys and big enough to be able to help them. It's character we want. Men at the heads of the huts whom you would want your sons to know and like; men it would be good for them to know."

More than 5,000 men and women are already enrolled as Y. M. C. A. workers at home and abroad, but the need is growing more heavy as the American forces in France increase. "But the total," says a statement just issued, "is only the beginning." We began the month of April with a deficiency of 457 men. On April 1 we had requests for 571 workers for overseas. We need 400 men in the United States. France and Italy ask us for help. And almost every day brings new demands upon us. Just a day or two ago we received the following telegram from E. C. Carter, chief secretary in France:

"Imperative you meet out full need for men immediately. We were never so understaffed as now. Ninety-six important positions without workers. Forty-seven of these near the front line. Thirty-eight under enemy fire. Have but one man in places where there should be not less than two. It is criminal to have this condition. Send us more men!"

Vancouver, B. C., April 27.—Although the big Hastings sawmill here is closed for repairs and will not be operated again until August 15, the refuse burner that has served as a beacon for vessel masters for fifty-two years will not be extinguished. In all these years the fire has burned constantly, and it is declared there is enough refuse on the pile to keep the fires fed until after the mill resumes operation.

ANCIENT LAND GRANTS FIELD AT COURTHOUSE.

(By International News Service.)

Belleville, Ill., April 27.—Three ancient land grants were received at the courthouse here in one day recently.

The first document was a land patent given by James K. Polk to Niclaus Knecht for eighty acres near Kaskaskia, Ill., first State capital city. It bears the date June 10, 1848, autographed by James K. Polk, president of the United States.

The other two grants were signed by James Monroe in 1824 and convey titles to tracts of land to Joshua Clark and Masterson Clark.

"HERB DOCTOR" PREPARES CONCOCTION—PATIENT DIES

(By International News Service.)

Anderson, S. C., April 27.—Milton R. Garrett, seventy years old, felt indisposed and called on a "herb doctor" who gave him a concoction, which the doctor contended was "purely vegetable." Garrett took a dose of it. His indisposition increased to excruciating pain. Then he called a "regular" doctor. The physician advised Garrett he had been poisoned and a short time later the patient died.

MONSTER GUNS ARE SILENCED

ONE HAS BEEN DESTROYED BY THE FRENCH—ONLY ONE CAN NOW SHELL PARIS.

One of the three German long range guns which have been bombarding Paris has been destroyed according to Deputy Charles Leboucq, of the department of the Seine. The deputy said he had talked with the general commanding the sector near Crepy-En-Laonnois, where the big guns are stationed. The enemy, he declared, is constructing new emplacements.

"As one of the deputies of Paris," said M. Leboucq, "I was anxious to assure myself personally with regard to measures taken to counter-attack the cannon bombarding Paris. I went to see the general commanding a certain sector who showed me photographs and gave me all the information he had."

"The photographs show that the guns are placed exactly between Crepy En Laonnois station and the counter forts known as Joy Hill. Two spur lines start from the station. On these the heavy guns are moved to the firing platforms."

"The first spur has a branch leading to a platform which is still occupied but the center platform is empty. Its gun has been destroyed. Two more spur lines are under construction, showing that further cannon are expected."

"The emplacement platform on which the gun sets explains the regularity of the direction of the firing which we undergo. At the moment of firing, ten heavy guns are fired by a special apparatus to camouflage the sound of the big gun so its location cannot be judged from the sound. At the same time thick clouds of smoke from surrounding heights protect the gun from airplane observation."

"Numerous squadrons of pursuit airplanes are placed in the vicinity together with batteries of anti-aircraft guns. French counter-batteries have been placed so as to interfere with the action of the guns."

"On Tuesday evening one of these guns was damaged so that at present only one is in service. All the crew of this gun were killed."

BINGHAM HEIRS TO MAKE FIGHT

ENORMOUS TAXES DUE STATE WILL NOT BE PAID WITHOUT CONTEST.

New York, April 26.—The testimony taken in New York this week before State Appraiser G. W. Hardin, of Louisville, points clearly to the fact that there will be a stoutly contested lawsuit before Kentucky can collect any of the enormous taxes due on the estate of Mrs. Robert W. Bingham late heiress of the Flagler millions.

Attorneys Robert G. Gordon, Hite Hufferaker and James Garnett, of Louisville, spent several days examining W. R. Kenan, Jr., brother of the late Mrs. Bingham; Judge W. A. Blount, of Pensacola, an executor, and others. Their examination was exhaustive, and while it failed to develop any hidden millions, it was particularly important in drawing the line of defense which will be set up by the heirs.

TANKS AND TANKS.

Just as the Germans thought they had met the tank invention of the British and could use the big machines themselves, the Britons sprang a new one on them. Little mosquito tanks darted in among them, their work being thus described: "The slaughter caused by the small British tanks among a concentration of the enemy near Cachy in Wednesday's fighting appears to have been even greater than was originally reported. A few of these little engines, which are much faster than the ordinary big tanks, made the assault so quickly on two or three battalions of the enemy's infantry which were forming for an attack that the Germans were unable to scatter before they were being fiercely deluged with machine gun bullets."

Not only that, but a large number of men were caught beneath the tanks and ground into the earth.

Prisoners estimate that at least two and probably three German companies were wiped out in a few minutes.

The machines returned in such bloody condition from the fight that they had to be washed down.

One German prisoner had a rough experience with the small tanks and lived to tell the story, although he was much shaken as a result of his experience. He got separated from his unit and was hiding in a shell hole near Cachy when a tank charged directly over the hole. It was deep enough to protect the German but he was so terrified that he lost consciousness and was just regaining his senses when the performance was repeated by a second tank. Again he escaped and saved himself further trials by being captured.

Hunter, aged sixty-eight, a planter living across the Mississippi river from Vicksburg, arrived here and complained to Federal authorities that his neighbors had accused him of disloyalty and had treated him to tar and feathers. He explained that recently while at his old home at Williamsport, Ind., he had invested \$5,000 in his savings up for discussion, and the presence in second Liberty Loan Bonds and consequently could not invest in the Third Liberty Bonds.
